I am doing absolutely nothing wrong --- nothing illegal -- and if you think this is some kind of threat -- well that maybe because you are not operating in the best of excellence you ought to be. How about applying and adapting to change -- and that you say -- oopsie daisy --- we are sorry for our

misapplied priorities.

Eh?

I am not the one acting badly -- you all are!

Do you see yourself applying your role to which you are blocking here?

This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities—such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

# Worried About Swearing Too Much? Science Says You Shouldn't Be

People who swear like a sailor are more honest and more intelligent, studies show.

Well, damn. Maybe you stubbed your toe first thing in the morning. Or some thoughtless commuter forced you to slam the brakes on the drive to work. Perhaps you're just fed up with it all and feel like sinking to your knees and cursing the heavens.

If you've ever suppressed the urge to unleash a string of obscenities, maybe think again. Some research suggests that it might be a better idea to simply let the filth fly.

Scientifically speaking, a penchant for profanity doesn't seem to be such a bad thing. Studies have shown that swearing relieves stress, dulls the sensation of pain, fosters camaraderie among peers and is linked with traits like verbal fluency, openness and honesty.

IT BECOMES OBVIOUS -- YOU ALL CAN NOT BECOME HONEST!

## Damn Honest

Beyond swearing's impacts on the body and mind, research has shown that cursing can influence our social dynamics, too. A **2012 study** found that swearing can enhance the effectiveness and persuasiveness of an argument. In addition, cursing can also convey an **emotional reaction** to something without us resorting to physical violence.

And while many might consider swearing less than savory, a **recent study** revealed that people who curse often actually lie less and have a higher degree of integrity.

After the scientists surveyed how often participants use profanity, they conducted a series of tests to determine how truthful an individual was. The research team found a positive link between profanity and honesty. Cursing was associated with less deception on an interpersonal level, and higher levels of integrity overall.

Moral Agency Moral agency is the ability to make ethical decisions based on what is right or wrong. This capacity can be found in individuals or collective entities like businesses or health care institutions. <https://study.com/academy/lesson/moral-agency-nature-of-persons-moral-character-personhood.html> : Video 1:04 "Autonomy is required for person-hood" ----- What is autonomy and how is my autonomy being subject to outside forces being sacrificed as a patient who can not have a proper address of the nature of what is happening? This story here goes to the foundation of why I have not been on HIV Medications since March of 2019. It is January 19th 2023 as I sit here pondering whether or not my Doctor who was supposed to be treating me for HIV so far has not opened my email. Back in March of 2019, My doctor, Eric Tomomi Shigeno was working at the Borrego Health Clinic on 6th and Est in San Bernardino. I had planned to finally bring up a subject that had been [ disturbing my sleep ] bothering me ever since I arrived back in my hometown in July of 2017. Ever since I can remember back to growing up, I have never seen such an effort by people to not become an agency of corroborative conversation. Never have I ever seen such a resistance to subjects I am needing to discuss. It is bothersome that I know these topics are DIRECTLY RELATED to my healthcare, and still, the doctors seem to need --- DEEP DEEP NEEP to avoid this topic. I don't understand how you all sleep. Prior to my appointment, I initiated a contact on Twitter to the CDC HIV Director @DrMerminCDC. A Short introduction the the matters of personally lived experiences that I also had followed up to the events were documented onto what is alive life journal space. Basically, the overall subject of this falls under [ Quality of Standard Of Care ] that I had been receiving. So, I began at the top of the chain because I figure something should be addressed more outwardly than just my 1 to 1 interface with medical care. Do, I placed the tweets online. I had then taken the URL [ Universal Resource Locator ] and created a QR CODE and PRINTED it so I could share this with my doctor. Exactly, what did I do wrong? Never Never ever ever have I ever seen such a DASTARDLY EFFORT TO AVOID A CONVERSATION WITH ME. That DASTARDLY EQUATION STILL REMAINS! It would be nice to know that the doctors will not lie and deceive me if I come up to bring some subject and I get SWAT -- SHOO FLY DON'T BOTHER ME! So, I was the medical exam room when my Doctor came in. At a pause in the conversation, I had to bring forward my inquiry. The first thing I did was to attempt to relate and share what is a GOOGLE SEARCH result for the local HIV service agency. At the time, the review was over a year old. I am here today knowing that the review for Arron Jacobson requires some understanding. I would like, perhaps truly DEMAND, that this community comes to grips with what has happened to me, apologies in some way for destroying my family relationships. And before my mother dies, the community of wrongdoing actors makes my mother a promise they will not allow me to die. Die from HIV Aids Disease. How can you all sleep knowing this shit is going on? So I suggested to Doctor Shigeno that he pull out is a mobile device and perform a OK Google - Foothill Aids Project San Bernardino. My doctor acting like a bumbling fool messing around with his device as though he is dumbfounded to do this himself. I had to take over the lead of this conduct this search and read the review to him. [ Reflecting Back, I am not a child -- I expect much more than that flimsy kind of relationship. So that failed to place into the RECORD on digital footprints on his device, so he could claim CULPABLE DENIABILITY [ Most Likely ]. Let us FILE the REVIEW here in this TEXT SUBMISSION, hopefully, the DEVELOPERS have the allowance to bring this kind of content here. Currently showing rating 3.9 of 5 stars, totally over the truthfulness of the matter. Here is the review that I tried to share with a doctor who so-called cares. No care. ---- Foothill Aids Project 344 W 2nd St, San Bernardino, CA 3.97 Aaron Jacobson= 1 review 4 years ago This agency is FRAUDULANT in its services and practices when it comes to serving the HIV population and utilizing Ryan White Funding. My recommendation for any HIV client interested in signing with them is to run as far and as fast as you can...they treat HIV consumers with contempt and unprofessionalism. ---- He has only placed 1 review on site. This means something. So while I was trying to share these details with HIV Doctor, the next item is TWITTER. I had brought in QR Code to the tweet thread. What exactly did I do wrong? Nothing. The doctor and I got into a disagreement. At the time, I did not know that the clinic themselves what on @Twitter. There is no excuse for this. Borrego Themselves have a Twitter account @BorregoHealth Here is a SEARCH KEY for the tweets named between @DrMerminCDC and my self @Gruwup The reason why my doctor would not begin to have a conversation with me is outrageous to hold against me. He ended up DIVORCE and terminated my care. How utterly IMMORAL! This is my 2nd Mental Health Treatment Period With Inland Psych. My last care was with Dr. Farooqi from the Redlands Office. The very first item of priority that i need to share with Dr. Farooqi was a YouTube Video That Applies To Mental Health That I created [ The Rebirth Of Standards Of Care Psychiatry : The Modern Predicament : 130 views : Apr 20, 2018 : <https://youtu.be/lKKdpXYPusQ> ] --- The next item I would like to place into view are folder container memespace that is found on my personal informational network. There are folders in the name of relevant documented details as it applies to my mental health. \*\*\*\*\* [ <http://webdomains.fuckeduphuman.net/inlandpsych.com/> ] ---> [ <http://webdomains.realuphuman.net/inlandpsych.com/> ] : [ <http://fuckeduphuman.space/911-Text-Interface/> ] -- OOPS did i do that? Yes! Doctor! I did that! : This folder contains the 911 Text Interface Saved Chat Text Archive Files for 911 during the events that began on January 3rd, 2021 that resulted in #Bloodroom101 -- a motel room in San Bernardino after I had to break the mirror and stick a piece of sharp glass mirror into my neck. The reasons for this are predicted and placed in the 911 transcript 2 hours before checkout time. [ <http://fuckeduphuman.space/AudioNarratives/> ] - This folder has various audio narratives that are compiled to address those who I am reaching out for help and resolve -- none so far has been taken seriously to help me. \*\*\*\*\* TO ALL CARE TEAM STAFF AT INLANDPSYCH - -I would visit this page -- if you are purposefully AVOIDING the CONFLICT that is pre-cognitively in your mind that prevents you from having an open and honest discussion with me. [ <http://fuckeduphuman.space/%23%23%23%5b%2001%20-%20Conflict%20Avoidance%20and%20Associated%20Problems%20%5d/> ] --- In July 2021, I had enough and was fed up with no one actually respecting and responding to offer me a resolve of the matters that are at the foundation of my mental stresses. So, There are Two Folders That Represent the Documented Record That Happened There --- [ <http://fuckeduphuman.space/Williamson-County-Texas-Jail/> ] -- a 58 Day Stay In Jail -- They would eventually dismiss the charges and send me into an INVOLUNTARY STAY PSYCHIATRIC HOSPITAL here [ <http://fuckeduphuman.space/Temple-Behavioral-Healthcare-Hospital-Inc%20/> ] --- There were issues about the jailhouse operation and violations to fire protection equipment that when I got home, I followed up with complaint - the complaint was determined no violates which is BULL SHIT. This folder goes to that effort [ <http://webdomains.realuphuman.net/texasjailproject.org/> ]. AND LASTLY, The Issue I have with CRISIS SERVICES Support -- REAL! And according to the other video i reference on moral agency -- it takes autonomy to be able to hold person status -- and my autonomy is being seriously degraded in all of this -- that is the FOCUS that I MUST BRING into RESOLVE -- otherwise, I am going to leave again -- I mean REAL SOON --- We must have a treatment plan on how to best apply [ Disability Inclusion : <https://www.cdc.gov/ncbddd/disabilityandhealth/disability-inclusion.html> ] along with [ Patient-Centered-Communication : <https://www.aafp.org/afp/2017/0101/p29.html> ] - Thank you very kindly for allowing me to fill out these forms -- in detail.
